

Health and Safety

RAP is accredited with **OHSAS18001**.

This is an assessment specification for Occupational Health and Safety Management Systems. It was developed in response to the need for companies to meet their health and safety obligations in an efficient manner.

Plus:-

- All RAP vulcanising staff currently hold SPA CORE QUARRY PASSPORTS.
- CCNSG safety passports.
- Individual First Aid Courses.
- Safe lifting and slinging courses.
- Safe working at heights course.
- All equipment used on site is tested to meet HSE regulations.
- We strictly adhere to all Risk Assessments and Method Statements.

Environmental Policy

Rap is accredited with **ISO 14001**

ISO14001 is an internationally-recognised certificate for evaluating how an organisation manages its environmental matters.

RAP conveyors Ltd are committed to protecting the environment. We work closely with selected manufacturers who consistently work to minimise the impact of their production activities and products on the environment.
